DEV TOOLS

PROJECTS

GyanCode — Interactive Code Learning & Assessment Platform

📅 01/2025 — 05/2025

React JS · Node JS · MongoDB Atlas · Express JS

- Final year capstone project; full-stack platform for students and teachers with code editors, assessments, and real-time feedback
- Led a team from requirement gathering through deployment

AI-Powered Online Code Editor

HTML · Tailwind CSS · JavaScript · DeepSeek R1 API · Vercel

- Built and deployed an AI-assisted code editor with intelligent code suggestions and auto-completion

Simple Media — Social Media Web App

Django · Jinja2 · Python · MySQL

- Full-featured social media application with user authentication, post feeds, and profile management

EduDoc — Digital Notes Marketplace

React JS · Node JS · Supabase

- Platform enabling students to upload, share, and sell academic notes with secure authentication

News Browsing Website

React JS · NewsAPI

- Responsive news aggregator with real-time data, category filtering, and search functionality

Personal Portfolio Website

HTML · Tailwind CSS · JavaScript

- Highly aesthetic portfolio website showcasing projects, skills, and achievements with clean UX design
